Work History

Senior Frontend Developer(Full-time Remote)   Jan 2024 - Current
Founder and Lightning   Mohali

- Designed and maintained an internal dashboard used by **50+ developers and PMs**, building interactive **data visualizations with Recharts** that **reduced build cycle time** and enabled faster decision-making.
- Implemented **SEO**, **performance**, and **accessibility** improvements, leading to **faster load times**, **better user experience**, and a **35% increase in website traffic**.
- Worked on **4+ actively used projects** as part of the **care team**, supporting budget-conscious development by **integrating new features**, **fixing bugs**, and **writing test cases** to ensure stability and maintainability.
- Integrated **Google Tag Manager and Mixpanel** to track user behavior, enabling **data-driven UX improvements**.

Frontend Developer(Full-time Remote)   Feb 2022 - Dec 2023
Winux Software Solutions   Mohali

- Built a reusable UI component library with **React** and **Rollup**, significantly reducing **redundant code** and enabling **faster feature development** by standardizing components across multiple projects.
- Implemented feature-switching for safe, parallel prod deployments, enabling **real-time toggling**, **faster QA cycles**, and quicker user feedback.
- Designed and developed a data-driven web platform handling over **2 million+ records** using **Elasticsearch** and **custom Elasticsearch queries**, enabling **fast, real-time filtering** and **high-performance search experiences** at scale.

Frontend Developer(Full-time Hybrid)   Sep 2019 - Oct 2021
Chicmic   Mohali

- Built an interactive authoring tool with template reuse, cutting activity creation time and streamlining user workflows.
- Wrote clear technical docs on system workflows and dev practices, improving onboarding and team efficiency.
- Mentored interns, helping them get up to speed with the **JavaScript ecosystem** and internal libraries
- Delivered high-quality projects **under tight deadlines**, demonstrating strong **execution**, **focus**, and **dependability**.

Skills

Languages: Javascript, Typescript, Solidity	**Frameworks**: React, Next, Express
